## Detail Information

Place Of Origin:	
China	
Certification:	
CE / ISO Certification	
Working Weight:	
12800kg	
Sysyem:	
Hydraulic	
Color:	
Original Paint	
Traveling Speed:	
5.5km/H	
Engine Displacement:	
3.26L	
Port:	
From Shanghai Port	
Buket Capacity:	
0.53 - 0.64m³	
Condition:	
Used	
Supply Ability:	

5 - 10 Units Per Month
Highlight:  <b>Used Komatsu Excavator Crawler Type, KOMATSU PC 130 Used Crawler Excavator, Hydraulic Large Used Komatsu Excavator</b>

## | Product Description

### Used Komatsu Crawler Excavator Digger: Key Specifications

The Used Komatsu Crawler Excavator Digger is a top - notch construction machinery option. Weighing 12.8 tons with a machine weight of 12800 KG, it provides a stable foundation for heavy - duty work. Its 0.53 - 0.64m³ bucket capacity, powered by a 69.7KW Komatsu SAA4D95LE - 5 engine at 2200rpm, offers reliable performance for diverse tasks. It features original hydraulic cylinder, pump, and valve brands, along with core components. With a maximum walking speed of 2.9/5.5km/h, an overall length of 7590mm, an overall width of 2500mm, and an overall height of 2875mm, it has a maximum digging radius of 8290mm, a maximum digging depth of 5520mm, a maximum digging height of 8650mm, a maximum unloading height of 6210mm, and a maximum vertical excavation depth of 4980mm. It comes complete with a machinery test report and video outgoing - inspection, ensuring transparency and quality.

Project	KOMATSU PC 130
Working weight	12800kg
Power	69.7kW/2200rpm
Bucket capacity	0.53 - 0.64m³
Maximum walking speed	2.9/5.5km/h
Overall length	7590mm
Overall width	2500mm
Overall height	2875mm
Maximum digging radius	8290mm
Maximum digging depth	5520mm
Maximum digging height	8650mm
Maximum unloading height	6210mm
Maximum vertical excavation depth	4980mm
Maximum excavation radius at ground level	8170mm
Engine Name	Komatsu SAA4D95LE - 5
Engine displacement	3.26L

### Enhanced Efficiency for Optimal Productivity

This used Komatsu excavator digger offers enhanced efficiency. Its state - of - the - art Komatsu engine achieves up to 15% savings in fuel consumption while maintaining peak power output. The refined hydraulic system provides improved control, enabling operators to execute complex maneuvers with ease and speed. Whether it's digging foundations or moving soil, this efficiency boost translates to faster project completion and increased productivity on the job site.

### Extreme Durability for Challenging Environments

Built to last, the excavator features reinforced steel tracks and heavy - gauge booms. This rugged construction allows it to

Built to last, the excavator features reinforced steel tracks and heavy - gauge booms. This rugged construction allows it to operate seamlessly in the most challenging environments, from rocky mountain quarries to flood - prone areas. Its ability to withstand harsh conditions ensures long - term reliability, reducing the need for frequent repairs and minimizing downtime, which is crucial for any construction project.

**Smart Monitoring for Hassle - Free Operation**

Equipped with intelligent diagnostic tools, the excavator can detect anomalies in real - time. The smart monitoring system alerts operators to potential problems, facilitating timely interventions. This proactive approach prevents costly breakdowns and simplifies maintenance, allowing for hassle - free operation. It ensures that the excavator remains in optimal condition, maximizing its lifespan and performance.

**Diverse Applications in Construction and Mining**

In construction, this Komatsu excavator is a versatile workhorse. It's ideal for digging foundations, trenches, and basements, as well as land leveling and site preparation. In road construction, it efficiently excavates for roadbeds, clears obstacles, and moves soil. For mining operations, especially in small - to - medium - sized mines, it can handle the loading and transporting of ores. In urban infrastructure projects, it plays a vital role in tasks like digging trenches for pipelines and maintaining public facilities.

**Support and Services**

- **Troubleshooting and diagnosis:** Handle any technical issues with professional diagnosis and solutions.
- **Repair and maintenance:** Provide regular and on - demand services to ensure your excavator runs smoothly.
- **Parts and component replacement:** Replace damaged or worn - out parts promptly with high - quality components.
- **Equipment inspections and evaluations:** Conduct thorough inspections to accurately assess the condition of your excavator.

**FAQ**

**Q1: How do you ensure the performance of used excavators?**

A:Our experienced team conducts thorough inspections and performance tests on each used excavator to ensure it meets our high - performance standards.

**Q2: What's the delivery time?**

A:Delivery is within 7-12 working days after receiving the advance payment. We prioritize quick delivery to support your project timelines.

**Q3: Can the price be negotiated for large orders?**

A:Yes,we are open to price negotiations for large orders.The more you order,the more favorable the pricing we can offer based on your specific requirements.
