## | Detail Information

Place Of Origin:	
China	
Certification:	
CE / ISO Certification	
Type Of Bucket:	
Backhoe	
Sysyem:	
Hydraulic	
Hydraulic Valve Brand:	
Liyuan	
Working Weight:	
13900kg	
Power:	
71kW/1850rpm	
Bucket Capacity:	
0.28-0.75m³	
Maximum Walking Speed:	
3.4-4.9km/H	
Overall Length:	
7700mm	
Supply Ability:	

5 - 10 Units Per Month
Highlight:  <b>Doosan 150w-7 Used Excavator Equipment, 150w-7 Second Hand Wheel Excavator , used doosan 150w-7 hydraulic excavator</b>

## | Product Description

### Used Doosan Excavator: Feature Highlights

The Used Doosan Excavator, with an operating weight of 13.9 TON and a bucket capacity of 0.28 - 0.75 m³, is a remarkable piece of earth - moving machinery. Powered by an original 71kW/1850rpm Doosan DB58TIS engine, it features a maximum walking speed of 3.4 - 4.9 km/h, an overall length of 7700 mm, an overall width of 2600 mm, and an overall height of 2830 mm. With a maximum digging radius of 7220/8260/8740 mm, a maximum digging depth of 4670/5630/6130 mm, a maximum digging height of 7890/8620/8950 mm, a maximum unloading height of 5440/6200/6530 mm, and a maximum vertical excavation depth of 4170/5070/5660 mm, this crawler excavator comes with a machinery test report and a video outgoing - inspection, ensuring peace of mind for buyers.

Project	Doosan 150w-7
Working weight	13900kg
Power	71kW/1850rpm
Bucket capacity	0.28-0.75m³
Maximum walking speed	3.4-4.9km/h
Overall length	7700mm
Overall width	2600mm
Overall height	2830mm
Maximum digging radius	7220/8260/8740mm
Maximum digging depth	4670/5630/6130mm
Maximum digging height	7890/8620/8950mm
Maximum unloading height	5440/6200/6530mm
Maximum vertical excavation depth	4170/5070/5660mm
Maximum excavation radius at ground level	7050/8110/8600mm
Engine Name	Doosan DB58TIS

### Efficient Operation

This used Doosan excavator offers efficient operation. Its fuel - efficient engine reduces consumption while maintaining performance, which is a significant advantage for long - term projects. The optimized hydraulic systems provide enhanced sensitivity, allowing for precise and swift operation. Whether it's a delicate excavation task in urban construction or heavy - duty digging in a mining site, this excavator can handle it with ease.

### Superior Durability

Constructed with heavy - grade, wear - resistant tracks and fortified booms, the excavator is built to last. It can operate effectively in extreme conditions, from the scorching heat of arid deserts to the freezing cold of icy terrains. This durability ensures that the machine can withstand the rigors of continuous use, reducing the need for frequent repairs and maintenance.

**Smart Management**

Equipped with smart monitoring modules, the excavator provides detailed insights into its operational status. The predictive maintenance feature is a game - changer, as it anticipates component wear. This allows operators to perform proactive servicing, preventing unexpected breakdowns and ensuring an uninterrupted workflow.

**Wide - Ranging Applications**

In urban construction, the used Doosan excavator is a reliable device. It conducts precise excavation and pipeline laying in residential and road projects, contributing to city building. In the mining industry, its professional - grade configurations enable it to adapt to harsh environments, significantly improving ore mining efficiency. For farmland renovation, it can complete canal excavation and land leveling, optimizing agricultural water conservancy facilities. In greening projects, it easily achieves tree pit digging and landscape terrain shaping. During demolition work, it efficiently demolishes buildings and clears ruins, and in industrial infrastructure, it undertakes earth excavation and foundation construction.

**Support and Services**

- **Troubleshooting and diagnosis:** Handle any technical issues with professional diagnosis and solutions.
- **Repair and maintenance:** Provide regular and on - demand services to ensure your excavator runs smoothly.
- **Parts and component replacement** Replace damaged or worn - out parts promptly with high - quality components.
- **Equipment inspections and evaluations:** Conduct thorough inspections to accurately assess the condition of your excavator.

**FAQ**

**Q1: How do you ensure the performance of used excavators?**

A:Our experienced team conducts thorough inspections and performance tests on each used excavator to ensure it meets our high - performance standards.

**Q2: What's the delivery time?**

A:Delivery is within 7-12 working days after receiving the advance payment. We prioritize quick delivery to support your project timelines.

**Q3: Can the price be negotiated for large orders?**

A:Yes,we are open to price negotiations for large orders.The more you order,the more favorable the pricing we can offer based on your specific requirements.
